AI LITERACY COHORT

Build the knowledge, skills, and confidence to use AI responsibly in teaching and learning.

MODULE 1
Explore & Experiment

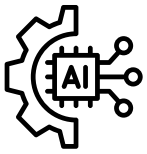

Build AI Literacy & Confidence

Understand the possibilities, limitations, and responsibilities of AI in education.

MODULE 2
Design & Apply

Transform Teaching & Learning with AI

Discover how AI can enhance planning, personalize learning, and engage classrooms.

MODULE 3
Implement & Reflect

Empower Students & Implement AI Responsibly

Prepare students for an AI-powered world while building sustainable AI integration.

WHAT YOU'LL WALK AWAY WITH

- **Practical AI Knowledge & Confidence**
  The skills to use AI thoughtfully and effectively in your planning and instruction.
- **Responsible AI Practices**
  Clear strategies for academic integrity, critical thinking, and appropriate use.
- **Classroom-Ready Resources**
  Prompts, lessons, assessments, and materials ready for immediate use.
- **A Personalized Implementation Plan**
  An actionable roadmap for integrating AI into teaching and learning.

One live workshop and two self-paced learning experiences per module
Coaching and implementation time between modules

Understand AI. Apply with Purpose. Teach with Confidence.
