GOOGLE WORKSPACE COHORT

This hands-on professional learning cohort helps educators connect tools, leverage Gemini and AI capabilities, automate everyday tasks, and design creative learning experiences that transform what happens in their classrooms.

MODULE 1

UNLOCK THE POWER OF GOOGLE WORKSPACE

- Explore advanced features in Docs, Slides, Sheets, Forms, Drive, and Classroom.
- Connect tools to streamline organization, communication, and collaboration.
- Build a personalized productivity toolkit and redesign a workflow that saves time.

MODULE 2

SUPERCHARGE GOOGLE WORKSPACE WITH AI

- Use AI to brainstorm, create, refine, and differentiate instructional materials.
- Build AI-assisted workflows across Docs, Slides, Sheets, Forms, and Classroom.
- Develop prompts & workflows grounded in accuracy, privacy, and responsible AI use.

MODULE 3

CREATE, COLLABORATE & INNOVATE

- Design student-centered projects with Slides, Sites, Forms, and My Maps.
- Create interactive learning experiences and collaborative student products.
- Develop an implementation plan for continued innovation and growth.

WHAT YOU'LL WALK AWAY WITH:

- Advanced Google Workspace skills and confidence with connected tools.
- AI-powered productivity strategies, prompts, and repeatable workflows.
- Creative, classroom-ready lessons, templates, and student-centered projects.
- A personalized plan for teaching, learning, and professional productivity.

One live workshop and two self-paced learning experiences per module
Coaching and implementation time between modules.

Go Beyond the Basics. Unlock What's Possible.
